We supply certified, forest carbon offsets to a growing number of companies including tour operators, camps and lodges, schools, aviation and cosmetics companies. →

# OUR IMPACT IN 2019

 **613,316**   
hectares of forest was protected, an area twice the size of greater London

 **1,536,700**   
trees kept in the ground in 2019, the equivalent to 95 million paperback books

 **1,425,000**   
tonnes of CO<sub>2</sub> emissions avoided to date, the equivalent of Fiji's annual carbon footprint

 **US\$150,959**   
earned by forest communities in 2019 through protecting their forest

**15**   
threatened species protected (IUCN Red List)

**12**   
out of the 17 UN sustainable development goals addressed

Assisted 24 companies and 27 individuals to measure, reduce and offset their carbon emissions.  
Judge of 2019 RTTZ Climate Change Action award.  
Participated in 2019 UN Climate Week.

**Biodiversity Highlights:**  
Over 600km covered on foot patrols across the Yaeda Valley.  
Endangered wild dogs were recorded in both Makame Savannah and the Yaeda Valley projects.  
Leopard with her cub sighted in the Yaeda Valley.

**2019 Milestones:**  
Makame WMA receive funding to enhance forest protection activities. →  
Yaeda Valley wins UN 2019 Equator Prize. →  
Ntakata Mountains Project receive first carbon revenues and distribute between the 8 communities. →

What happens when you offset your carbon emissions?  
To date offset payments have resulted in:

30 Village Game Scouts trained at Pasiansi Wildlife Training Institute

100 people employed in habitat protection

30 primary and secondary students provided with an education in Yaeda Valley

16 village communities involved in results-based conservation work

637 patients treated during 2019 through the Yaeda Valley outreach clinics
